**Subject:** Penmaen Bach tunnel repairs.

Dear Minister, Edwina,

I am receiving several concerns about the current road works taking place in relation to the above.

There are currently two lanes of gridlocked traffic stretching right back as far as Llanddulas.

One lane on both sides is closed for approx two miles and this is causing a tremendous delay.

Although the works are taking place through the night in the tunnel, the road diversions are in place during the day and it's being described as very chaotic.

It would therefore be much appreciated if you could look into this as a matter of some urgent priority, and take these concerns forward on behalf of my constituents.

Many thanks and kind regards,

Janet.
